

4.8 Professional profile validation certificate / Skills' validation certificate

WHAT

Both tools certify the possession of the competences, but they differ according to the assessment results.

The Professional profile validation certificate is released to the individual if the assessment shows full possession of all competencies of the agri-food reference professional profile included in the Catalogue of Professional Needs developed within the Embrace project.

The Skills' validation certificate is released to the individual in case the assessment shows partial possession of the competences of the reference professional profile.

WHY

Both tools aim at declaring the possession (full or partial) of the competences of the reference professional profile included in the Catalogue of Professional Needs developed within the Embrace project.

WHO

The IVC operator is responsible for the completion of the tool.

WHEN

VALIDATION PHASE

Both tools formally close the IVC process.

WHERE

Both tools are used as a back office activity and processed at the IVC operator's workplace
